

Open and Enclosed Non-Combination Motor Starters

Built to your specifications and ready to install

Sprecher + Schuh magnetic motor starters are intended to eliminate the purchase and assembly of a separate contactor, overload relay and associated wiring. When purchased with an enclosure, the starters are mounted and ready to install on receipt.

Starting with the best

At the heart of all magnetic starters is the Sprecher + Schuh CAT7 and CAT9 line of motor starters. These starters are compact and offer intermediate sizes to better match specific motor requirements. This equates to generous wiring space and less wasted horsepower capacity.

Top line protection...

Magnetic starters are equipped with Sprecher + Schuh's premium CEP7 solid state overload relay standard. Unlike traditional overload relays that indirectly sense motor current through heater elements, CEP7 solid state overload relays measure motor current directly through integrated current transformers and on board electronics. The electronics provide numerous advantages over electromechanical relays. Alternatively, the CT7N Thermal Overload Relay may also be selected.

applications, we can house any starter in a custom enclosure of your choosing.

Quality enclosures ensure the highest confidence

Sprecher + Schuh only sources enclosures from name brand manufacturers, ensuring the highest quality. We primarily use enclosures that meet UL Standards, i.e., Type 1, Type 3R, etc., however, we can also source IEC-type enclosures at your request. Enclosures are sized first to accommodate the depth of the contactor and offer sufficient electrical clearances to satisfy UL.

Add a variety of modifications

If you need a larger enclosure than what is specified in our catalog, your sales representative and our Engineering department will work with you to customize any of our enclosed products to suit your exact specifications. Any combination of enclosure types, sizes, pilot devices, meters and other modifications can be combined to provide exactly the panel you need.

The right enclosure... whatever the application

Sprecher + Schuh's broad line of IEC style starters can be purchased pre-installed in a variety of standard enclosures. Cataloged enclosures include:

- Type 1** General Purpose
- Type 12** Industrial Dusttight
- Type 3R** Raintight (outdoor)
- Type 4** Watertight
- Type 4X** Watertight,
Corrosion Resistant

Even though these are the most popular enclosure types for most industrial

NOTE: Catalog numbers and enclosure dimensions reflect contactors with AC coils. For DC coils, select Coil Code from the DC Coil Code table on page C104 and follow the instructions for modifying catalog numbers.

Ordering Instructions

Specify Catalog Number	
Replace (*) with Coil Code	See page C104
Replace (◆) with O/L Relay	See pages C105-C106
Factory Modifications available	See pages C107-C111

- ① Dimensional information starts on page C122.
- ② For Type 3R outdoor applications, replace "D" in catalog number with an "R". Dimensions may change. For example number CBUTx7-23-*-◆-D0 becomes CBUTx7-23-*-◆-R0. Price remains the same.
- ③ Contactors are equipped with number and type of auxiliaries indicated. See page C108 to order additional or different auxiliary contacts.
- ④ One N.C. auxiliary contact is used for electrical interlocking. On CAUT7 reversing starters, the N.C. contact comes from the Mechanical/Electrical Interlock unit (Cat # CM7-02).

NEMA Sized Open and Enclosed Non-Combination Motor Starters

Built to your specifications and ready to install

Sprecher + Schuh magnetic motor starters are intended to eliminate the purchase and assembly of a separate contactor, overload relay and associated wiring. When purchased with an enclosure, the starters are mounted and ready to install on receipt.

Starting with the best

At the heart of all Sprecher + Schuh NEMA sized magnetic motor starters is the CATN7 line of motor starters. Each starter proudly displays the NEMA size (00, 0, 1, 2, or 3) and HP at applied voltage. This line of starters is designed to meet rigid consultant specifications for NEMA starters.

Top line protection...

NEMA labeled magnetic starters are equipped with Sprecher + Schuh's premium CEP7 solid state overload relay standard. Unlike traditional overload relays that indirectly sense motor current through heater elements, CEP7 solid state overload relays measure the current directly through the energizing contact transformer on both sides. The electronic platform offers numerous advantages over electromechanical relays. Alternatively, the CT7N Thermal Overload Relay may also be selected.

Even though these are the most popular enclosure types for most industrial applications, we can house any starter in a custom enclosure of your choosing.

Quality enclosures ensure the highest confidence

Sprecher + Schuh only sources enclosures from name brand manufacturers, ensuring the highest quality. We primarily use enclosures that meet NEMA standards, i.e., Type 1, Type 3R, etc., however, we can also source other enclosures at your request. Enclosures are sized first to accommodate the depth of the contactor and offer sufficient electrical clearances to satisfy UL.

Add a variety of modifications

If you need a larger enclosure than what is specified in our catalog, your sales representative and our Engineering department will work with you to customize any of our enclosed products to suit your exact specifications. Any combination of enclosure types, sizes, pilot devices, meters and other modifications can be combined to provide exactly the panel you need.

See new NEMA Starters Section starting at page 101.1

See new NEMA Starters Section starting at page 101.1

The right enclosure... whatever the application

Sprecher + Schuh's line of NEMA style starters can be purchased pre-installed in a variety of standard enclosures. Cataloged enclosures include:

- Type 1 General Purpose
- Type 12 Industrial Dusttight
- Type 3R Raintight (outdoor)
- Type 4 Watertight
- Type 4X Watertight, Corrosion Resistant

Type 1

- Class CC Fuse holder as fused primary of CCT
- Reset pushbutton

- ① HP and NEMA size selection shown for 460V ratings only. Contact your Sprecher + Schuh representative for other voltage applications.
- ② Contactors are equipped with number and type of auxiliaries indicated. See page C108 to order additional or different auxiliary contacts.
- ③ Dimensional information starts on page C122.
- ④ HP and NEMA size selection shown for 575V ratings only. Contact your Sprecher + Schuh representative for other voltage applications.

Single Phase, Non-Reversing CBTN7

NEMA Size	Maximum HP Single ϕ		Auxiliary Contacts per Contactor ②		Open Type	Type 1 General Purpose	D I M	Type 12 [Type 3R ③] Industrial Dusttight	D I M
	115V	230V	NO	NC					
00	1/3	1	1	0	CBTN7-12-* \diamond	CBTN7-12-* \diamond -G0	A	CBTN7-12-* \diamond -D0	L
0	1	2	1	0	CBTN7-16-* \diamond	CBTN7-16-* \diamond -G0	A	CBTN7-16-* \diamond -D0	L
1	2	3	1	0	CBTN7-37-* \diamond	CBTN7-37-* \diamond -G0	A	CBTN7-37-* \diamond -D0	L
2	3	7-1/2	1	0	CBTN7-43-* \diamond	CBTN7-43-* \diamond -G0	A	CBTN7-43-* \diamond -D0	L
3	7-1/2	15	1	0	CBTN7-85-* \diamond	CBTN7-85-* \diamond -G0	B	CBTN7-85-* \diamond -D0	M

Single Phase, Non-Reversing CBTN7

NEMA Size	Maximum HP Single ϕ		Auxiliary Contacts per Contactor ②		Type 4 Watertight	D I M	Type 4X Watertight Corrosion Resistant Non-metallic	D I M
	115V	230V	NO	NC				
00	1/3	1	1	0	CBTN7-12-* \diamond -W0	N	CBTN7-12-* \diamond -C0	S1
0	1	2	1	0	CBTN7-16-* \diamond -W0	N	CBTN7-16-* \diamond -C0	S1
1	2	3	1	0	CBTN7-37-* \diamond -W0	N	CBTN7-37-* \diamond -C0	U1
2	3	7-1/2	1	0	CBTN7-43-* \diamond -W0	N	CBTN7-43-* \diamond -C0	U1
3	7-1/2	15	1	0	CBTN7-85-* \diamond -W0	O	CBTN7-85-* \diamond -C0	U1

This page has moved.
 See new NEMA Starters Section starting at page 101.1

NOTE: Catalog numbers and enclosure dimensions reflect contactors with AC coils. For DC coils, select Coil Code from the DC Coil Code table on page C104 and follow the instructions for modifying catalog numbers.

Ordering Instructions

Specify Catalog Number	
Replace (*) with Coil Code	See page C104
Replace \diamond with O/L Relay	See pages C105-C106
Factory Modifications available	See pages C107-C111

- ① Dimensional information starts on page C122.
- ② For Type 3R outdoor applications, replace "D" in catalog number with an "R". Dimensions may change. For example number CBTN7-37-* \diamond -D0 becomes CBTN7-37-* \diamond -R0. Price remains the same.
- ③ Contactors are equipped with number and type of auxiliaries indicated. See page C108 to order additional or different auxiliary contacts.

Single Phase, Non-Reversing CBTN7 @ 120V AC Non-Combination

NEMA Size	Max HP 1-Phase ①	Auxiliary Contacts per Contactor ②		Type 1 Metallic General Purpose	DIM	Type 3R Metallic Outdoor Raintight	DIM
		NO	NC	Catalog No.		③ Catalog No.	
00	0.33	2	1	CBTN7-12-120-ERB-G17-L11	A	CBTN7-12-120-ERB-R17-L11	L

	7.5	2	1	CBTN7-85-120-EUE-G17-L11	B	CBTN7-85-120-EUE-R17-L11	M

Full Voltage Non-Reversing (FVNR) Features include:

- NEMA-sized CAN7 contactor
- Single-Phase CEP7S electronic overload relay
- AC coil
- Hand-Off-Auto (H-O-A) selector switch
- Red Run pilot light
- 2-NO and 1-NC auxiliaries for customer use
- Reset pushbutton
